

SSR-D

SMOKE SENSOR

DESCRIPTION

Optical sensor for the automatic opening/closure of windows and rooflights in the event of smoke detection. Compatible with most smoke control units. When smoke is detected the sensor will automatically send a signal to the actuator (via control unit). Supplied complete with diode base.

TECHNICAL DATA

Primary Voltage	18-24V DC
Operating Condition	-20°C - +60°C
Size	100 x 42 mm
Protection Type	IP 23D
Delivery	1 x Smoke Sensor & 1 x Diode Base
Cable Size	2-Core

APPLICATION

SMOKE
VENTILATION

COMPATIBLE WITH

WSC 204 - Control Unit

WSC 310/320-STANDARD - Control Unit

WSC 310/320-PLUS - Control Unit

SCU-4 - Control Unit

VCS-S2 - Control Unit
